

Gothenburg, September 2023

## New prices from November 1, 2023

A year with new conditions that affect both you as customers and us as a supplier is coming to an end. We look forward to continuing to adapt to the market conditions and strengthen our service offering with the goal of creating higher competitiveness and success for our customers.

To ensure that we can continue to meet your need for logistics services also in the future, we will adjust our prices by at least 3.9 % from November 1, 2023. In addition, we present adjusted general terms and additional services that also apply from November 1, 2023. You can access terms and additional services via our website.

## Eventful 2023 and an expectant 2024

In 2023, we have continued to develop our network with both new and strengthened lines. We have modernized the capacity of our resource park with more environmental options such as gas and electricity. It creates good solution options for your logistics needs, whether they are temporary or continuous.

Our terminal structure continues to evolve through investment in capacity and tools to meet the needs associated with terminal-managed volumes. In Gothenburg, we have therefore expanded the terminal capacity and offer Customs warehousing and, of course, associated Customs Services.

In 2023, we have launched our new customer portal, MyTK, and in 2024 we will launch additional services and updates that will make it easier for you as a customer.

## If you have questions

If you have questions about our services, news or other things you are thinking about, you are always welcome to contact us.

You will find contact information for all our employees on our website [www.tklogistik.se](http://www.tklogistik.se). All of us at TK Logistik look forward to continuing to do our utmost to develop the best solutions for your logistics needs, create competitiveness for your company and develop the best solutions for your logistics needs and to provide you with the very best service.

Sincerely,

TK Logistik AB
